

GRP SMART BOLLARD 5073 SERIES

Introducing our Fiberglass and Wood Plastic Smart Bollards to extend the wireless and Wi-Fi coverage into malls, courtyards, resorts, sport venues, campus where mounting on buildings or poles are aesthetically not acceptable. This sleek and compact design combined with aesthetics offering a perfect solution for enhancing outdoor spaces and connectivity in one elegant package. The materials used for these Bollards are water proof and corrosion resistant.

This Bollard can accommodate most of the Access Points currently available in market such as **ARUBA Series 200,300,500,600** etc. and **CISCO 9124, 1532, 1562** etc.
